

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

WAR DEPARTMENT,
OFFICE OF THE CHIEF OF STAFF,
Washington, October 28, 1914.

This revised manual gives the list of articles of engineer, ordnance, and signal property required to equip the organizations, headquarters, and individuals enumerated herein for field service and which must be accounted for by organization commanders and by regimental adjutants as prescribed by War Department orders.

Upon receipt of this manual organization commanders will adjust their unit accountability equipments by turning in to the proper supply officer all surplus articles on hand and supplying deficiencies by requisition, so that the articles on hand for the unit accountability equipment of their respective organizations will conform to the number herein authorized.

Commanders of the old organizations, "Regimental headquarters," "Machine-gun platoon (headquarters detachment attached)" and "Non-commissioned staff and band," will at once make proper transfers of the accountability for the property of the old to the new organizations as enumerated herein, and invoice to the proper supply officers all surplus articles. As early as practicable after these adjustments have been made the commanding officers of these old organizations will render to the chiefs of the staff departments concerned final returns, made on Form No. 451, A. G. O., accompanied by a copy of each voucher pertaining thereto, to balance and close their accountability for the property pertaining to the old organizations.

The 5 per cent provided for emergency under par. 2, G. O. 43, W. D. 1913, is no longer authorized.

By order of the Secretary of War:

W. W. WOTHERSPOON,
Major General, Chief of Staff.

VI. ORDNANCE STORES FOR USE OF OFFICERS UNDER PAR. 1522, A. R., 1913.

ORDNANCE PROPERTY.

Organization commanders may keep on hand a sufficient number of the following-named stores to meet the provisions of par. 1522, A. R., 1913:

Automatic pistols, cal. .45, model of 1911.
Pistol belts, model of 1912.
Pistol holsters.
Pistol magazines, extra, two for each pistol.

VI. ORDNANCE STORES FOR USE OF OFFICERS UNDER PAR. 1522, A. R., 1913—Continued.

ORDNANCE PROPERTY—continued.

In case the organization is equipped with .45-caliber revolvers instead of automatic pistols, such revolvers with corresponding articles of revolver equipment, may be retained on hand for this purpose.

No additional ordnance stores of kinds other than those named above will be provided as a part of the unit accountability equipment to meet the requirements of par. 1522, A. R., 1913.

If at any time the number of rifles, gun slings, cartridge belts, and cartridge belt suspenders on hand pertaining to the regular unit accountability equipment of the organization is not sufficient to meet the provisions of par. 1522, A. R., 1913, then such stores will be drawn by the individual officers requiring the use of them from the post ordnance officer, or from the designated ordnance supply officer, under memorandum receipt. See par. 2, G. O. 24, W. D., 1913.

The rifle and pistol ammunition required to meet the provisions of par. 1522, A. R., 1913, will be taken from the ammunition which is held by the organization commander on memorandum receipt from the supply officer, under par. 7, G. O. 43, W. D., 1913.

VII. OFFICERS' HORSE EQUIPMENT.

ORDNANCE PROPERTY.

The following articles constitute a *set* of horse equipments for issue to officers entitled to them:

- (1) Set of model of 1912 equipment.
 - 1 bridle.
 - 1 carrier strap.
